# PMS

## Property Management Systems

## Featured Topic:

# In-Room Entertainment

### Editor's Note:

This edition focuses on In Room Entertainment Systems, which generally speaking spans movies, games, music, internet surfing and to some extent cabling and wiring. Given the wide range of categories for this this subject, we have endeavored to highlight some of the major players in these, but have certainly not featured all.

WE ARE PLEASED TO ANNOUNCE THAT HARVEY KAMP HAS JOINED ACCUVIA AS OUR NEW DIRECTOR OF BUSINESS DEVELOPMENT

We also offer additional insight into the current and future states of these technologies within the lodging industry, with thoughts and predictions from operators, vendors and our team of consultants.

Various technologies on display in GUESTROOM 2010, including the Ammique bed

on proud display in GUESTROOM 2010 at this year's HITEC, in relation to this week's topic. We offer a brief overview of some of the coolest new gadgets out there for this area of the hotel business.

Our next HTA issue will focus on Property Management Systems, so please get in touch if you are interested in being featured—we are always happy to hear from you.

As usual, feel free to send me your comments, questions and news.
