

THE EVOLUTION OF GUESTROOM 2010

GUESTROOM 2010's DEBUT

Let's face it. The one thing in any hotel room in the world that we know every guest will utilize is the bed. Ever since Westin Hotels & Resorts came out with the Heavenly Bed®, the hotel industry has continually tried to offer the perfect bed for guests. This was the one area that technology didn't impact, right? Wrong. GUESTROOM 2010 showcases AMMIQUE®'s **21st Century Bed Technology**. This bed not only addresses comfort, but also hygiene, airflow and adaptability. Maybe the sensation of floating on air is already here!"
