002 Armourcoat

Wagamama, the pan-Asian noodle bar chain has a commitment to progressive

design. This fusion of high and low tech design features includes innovative surface finishes such as the Armourcoat polished plaster feature wall at the new Richmond restaurant. This unique feature wall, created by Armourcoat craftsmen overlaying an Armuralia finish over a pre-masked background, demonstrates the flair and imagination, which can be achieved using Armourcoat polished plaster.

003 Ammique

An ingenious suspension system, has been created using the patented Ammique technology. It has been designed to support our

bodies in the ideal sleeping position by contouring to the natural curves of the body regardless of our weight, shape or movement. Not only is the sleeping surface superbly comfortable, it is also hygienic with excellent air flow as well as adaptable, stylish and versatile.

004 Clayton Munroe

Innovative UK door furniture company, Clayton Munroe, has joined forces with Bricard and is now the sole UK supplier of the Bricard Collection. Many of the designs were taken from the first engraved and mercury gilt bronze locks designed to fit the grand doors of the

Chateau de Versailles. The Collection includes lever handles, cabinet furniture, door knockers and hinges across periods from Louis XIV through to Renaissance, Empire and Art Deco.
